

Door #20B The Library Door - Bet you didn't know fairies love to read! They do, anything on gardens, animals or about the natural world and they love to laugh over human children's picture books. But every library needs a librarian and the fairies have Page. She loves to help fairies find books and she loves to read them to the fairy children. Our fairy librarian even has her own special home inside the library, can you find her door inside?

Doors #7½ and #71 - Fairy twins are very rare and while Mistral and Flitter may look alike they are as different as can be. Mistral is a musician. He likes to spend his hours sitting in his favorite spots creating wonderful pieces of music inspired by the wind, water and earth around him. His various melodies played on the needle piano, acorn lute or reed flutes are inspiring. Flitter though feels the need to move. Her love of dance compliments Mistral's music & brings energy to each piece. While Mistral sits, Flitter leaps, twirls and rolls allowing her boundless energy and joy to escape. Together, Mistral and Flitter, are wonderful entertainers, their shows are not to be missed. Can you guess who lives behind which door?

Fairy Walk

Meet the Fairies

Fairies have moved onto the library's grounds. Look around and see if you can find the doors to their homes. There are 12 outside doors and 1 inside door.

Door #1 - Luna just loves the night. The stars that sparkle and the fireflies are just so twinkly and fun. She spends most of her time staring up at the stars and the moon and designing wonderful dreams. If you find her door just remember to be quiet. If its daytime, Luna is likely to be sleeping inside.

Door #5 - Behind this door lives a very tidy garden fairy. Lupine likes to have his garden just so. No weeds and definitely no litter. But there is usually a riot of color: bluebells, yellow dandelions, violets and more. His favorite thing besides gardening is to sit on his little bench in the garden and read.

Door #11 - Now this door may look a little dark and scary, and that is how Needle likes it. Needle is a little bit grumpy and doesn't like company. But put him with a group of spiders and he's as happy as can be. That is why Needle makes the most wonderful spider silk creations of all. Unfortunately every fairy wants one.

Door #150 - Behind this door is a wonder of invention. Plants of all kinds grown in acorn pots, little bowls, wooden spoons and vials and tubes made from plants and roots. You have found Merlin's lab. Here he makes medicines, lotions and so much more. Have an upset stomach or a mouse with a cut then visit Merlin the herbalist and he'll fix you right up!

Door #245 - Dash is a bright, playful and cheeky fairy, but you have to be when you're a squirrel sitter. Dash just loves playing hide and seek, pass the acorn, and way up high with all his little friends. So if you happen to see a squirrel scampering around the library grounds, keep an eye out for mischievous little Dash riding along.

Door #88 - Zephyr, like her name, is always off in the wind somewhere exciting, scattering seeds as she goes. As a seed fairy it's her job to make sure seeds get to their forever homes. Everyday is a different seed taken to a different perfect place. But when Zephyr is home she likes to spend time with her friends and share stories from her travels.

Door #3 - Like most fairies, Pine spends a lot of time outdoors, but he likes to stay close to home and watch over his part of the forest. It's his job to help trees change colors for the season, and heal any injuries. Taking care of the forest is a big responsibility and Pine takes it very seriously, Though he does like his bit of fun - tossing acorns at passing humans. Watch out below!

Door #52 - Like any water fairy Periwinkle likes living by the "sea," where she can talk to fish and play with the tadpoles. During her free time she likes to sit on her little dock and fish, (unlike human fishing, fairy fishing is for feeding and making friends, not for catching). She could spend all day there fishing and watching the sparkles on the water.

Door #45E - Glee may be the smallest fairy, but she has the biggest heart. Her favorite thing to do is to help baby birds to fly. With her gentle encouragement, boundless wonder and outright joy, many bird mothers are happy to let Glee help their little one. When not giving flying lessons, little Glee can be found high in the trees swinging on her swing or playing with the birds and dragonflies.
